

Projects in Lebanon

ACG was founded on 2004 by Civil Engineers Imad Assaf and Architect Dory Asmar.

At this time, ACG has acquired a good history of contracting practice.

Our executed projects cover a wide range of residential and offices buildings, private villas, industrial and commercial projects warehouses and factories.

Our wide experience in the construction field enables us to provide our Clients with the appropriate and professional expertise at every stage of the undertaken construction project.

This is achieved by the use of wide range of equipment and construction materials as well as the latest computer technologies to deliver the best services and know-how to our Clients.

On 2017, ACG got affiliated with a restoration firm in Italy, who's chairman Mr Davide Calanca is the trusted adviser at the order of architects, planners, landscapers and heritage responsible at the province of Modena-Italy.

“Consigliere e Tesoriere dell’Ordine degli Architetti, Pianificatori, Paesaggisti e Conservatori della provincia di Modena”

With both administrative and site expertise ACG is confident of fulfilling all Client's requirements for future endeavors.
